

Empowering Digitally Enabled Care with the CPT® Code Set

This webinar will explore real-world examples of digitally enabled care in action. The case studies highlight successful collaborations between health systems or physician practices and digital health companies to facilitate digitally enabled care and drive the future of medicine for the betterment of public health.

On **Thursday, April 25, at noon Central**, join the AMA and leaders from Omada Health and Oshi Health to learn more about their approach to care delivery, how they collaborate with health systems and practices to drive outcomes, and the importance of leveraging the CPT code set to generate evidence for these new models of care.

Speakers

- Lori Prestesater: senior vice president, health solutions, AMA
- Justin Wu, MD: vice president of clinical innovation & quality, Omada Health
- Sameer Berry, MD, MBA: co-founder & chief medical officer, Oshi Health
